

# Steel Bench

## PRODUCT OUTLINE

Our ultimate bench series is classically styled and solidly constructed from steel. This bench features fully welded construction and ships fully assembled, but a modular version of the backed bench can be ordered for special needs. A durable polyester powder-coat finish assures lasting beauty. With straight or arched backs, a version is available to suit most settings. The back slats can be replaced with a custom, laser-cut, metal panel to provide advertising space or make this bench into a practical memorial.

### BACK TYPE

Arched Back  
Arched Back with Custom Laser-Cut Back  
Backless  
Straight Back
